Profile Summary

With a strong academic foundation in Computer Engineering, I have built solid technical and analytical skills that support my ability to execute data-driven marketing strategies. My technical knowledge in programming, databases, and web technologies enables me to understand digital systems deeply, optimize performance, and apply problem-solving skills across marketing and technology projects. This blend of education and technical understanding allows me to adapt quickly to evolving digital trends and tools

As a Digital Marketing Strategist, I specialize in SEO, AEO, and GEO, with strong knowledge of SMM, paid advertising, and content strategy. I focus on improving search visibility, strengthening brand presence, and optimizing content for search engines and AI-driven platforms. With hands-on experience in keyword research, on-page SEO, backlink building, content optimization, and performance analysis, I develop data-driven strategies that drive organic growth, engagement, conversions, and measurable results for brands and startups.

Technical Skills

Experience

Digital Marketing Intern Codeyaya – UAE (Duration: 4 Months) During my internship at Codeyaya, I gained practical experience in executing and optimizing digital marketing campaigns across multiple platforms. I worked on SEO, Google Ads, Meta Ads, and Social Media Marketing, assisting in content creation, keyword research, and performance tracking. I also contributed to campaign strategy development, data analysis, and audience targeting to enhance engagement and conversion rates. This experience helped me strengthen my skills in digital advertising, analytics, and campaign optimization, while gaining valuable insights into brand communication, market trends, and client collaboration within a professional marketing environment.

SEO Executive | 2Cloud, UAE

Experience: 8 Months

Worked as an SEO professional at 2Cloud, UAE, for 8 months, managing on-page and off-page SEO activities to improve organic search visibility and website performance. Conducted keyword research, optimized website content, meta titles, meta descriptions, headings, and other on-page elements. Handled backlink building, competitor and SERP analysis, and monitored keyword rankings, organic traffic, impressions, and search performance. Also supported SEO strategies for Magento Cloud and eCommerce websites, along with website rework, content updates, and ongoing SEO initiatives.
